Education

Srinivas Institute of Technology (SIT), Mangaluru

Mangaluru, Karnataka, India

Bachelor of Engineering in Computer Science & Business Systems (CSBS)

Expected June 2027

- **Affiliation:** Visvesvaraya Technological University (VTU Belagavi), Approved by AICTE
- **Relevant Coursework:** Data Structures & Algorithms, Database Management Systems (SQL), Object-Oriented Programming (Java/Python), Operating Systems, Computer Networks, Machine Learning

Technical Skills

Languages: Python, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3

Full-Stack & Mobile: React 19, Next.js, Node.js, Express.js, PostgreSQL, Android, RESTful APIs, Tailwind CSS

AI, ML & Analytics: PyTorch, Scikit-Learn, Pandas, NumPy, Polynomial Regression, Generative AI (LLMs)

Cloud & DevOps Tools: Amazon Web Services (AWS), Google Cloud (ACE), Docker, Git, GitHub Actions, Postman, Linux

Technical Experience

TechSaksham (Microsoft & SAP Initiative)

Remote

AI Product Engineering Intern

Nov 2024 – Dec 2024

- Architected deep learning computer vision classification pipelines using Python and Scikit-Learn, reaching 94% prediction accuracy.
- Optimized inference latency by 35% across 10,000+ test samples through automated feature reduction for real-time edge processing.

EduSkills Foundation (AICTE Supported)

Remote

Cloud Infrastructure & Network Security Engineering Intern

Oct 2024 – Dec 2024

- Architected resilient, multi-AZ cloud infrastructures on AWS (EC2, S3, VPC, RDS PostgreSQL, IAM) with Grade A evaluation.
- Configured virtual perimeter policies, Zero-Trust Network Access (ZTNA), and packet inspection fabrics via Fortinet (Grade O).

GirlScript Summer of Code (GSSoC)

Remote

Open Source Software Engineering Contributor

May 2024 – Aug 2024

- Contributed core features and performance optimizations for open-source developer tooling repositories using TypeScript and Python.
- Implemented automated GitHub Actions CI/CD workflows for linting and regression testing, increasing review throughput by 25%.

Key Engineering Projects

Hybrid Composite Regression Analysis | *Materials Analytics, ASTM Testing, Bio-Innovation*

2026

- Fabricated natural-fibre composites (coconut coir, flax fibre, recycled SUP plastic, epoxy) across CF, CFP, and CFT configurations.
- Evaluated tensile, flexural, and Charpy impact metrics per ASTM standards; achieved 30.5 MPa tensile strength and 2106 N peak load.
- Fitted second-order polynomial regression models to strain–force data achieving $R^2 > 0.98$; shortlisted for **NBEC 2026 Round 2**.

RazorOps AI | [GitHub](#) | [Live Demo](#) | *React 19, Python, Gemini AI, PostgreSQL, Tailwind*

2024

- Architected autonomous financial audit engine decoupling deterministic math from LLM reasoning across 5,000+ transaction rows.
- Engineered automated Postman test suites validating 19/19 assertions across idempotency and settlement contracts, cutting audit time by 40%.

NaanStop | [GitHub](#) | [Live Demo](#) | *React 19, TypeScript, Node.js, Android, PostgreSQL*

2024

- Engineered end-to-end commerce platform serving 500+ daily orders with real-time Kitchen Display System (KDS) and Android client.
- Delivered sub-250ms state synchronization and optimistic UI updates, ensuring zero race conditions under 100+ concurrent users.

Certifications & National Honors

National Bio Entrepreneurship Competition (NBEC 2026): Round 2 Virtual Presentation Shortlist (Sustainable Composites)

Pearson IT Specialist Certifications: Artificial Intelligence (verify.certipoint.com – PLD3-uSKY) | Data Analytics (waLMM-H9e3)

Industry Credentials: Google Cloud ACE (credential.net), AWS Academy Cloud Foundations, Fortinet Certified Associate
