Education

Srinivas Institute of Technology (SIT), Mangaluru

Mangaluru, Karnataka, India

Bachelor of Engineering in Computer Science & Business Systems (CSBS)

Expected June 2027

- **Affiliation:** Visvesvaraya Technological University (VTU Belagavi) • Approved by AICTE, New Delhi
- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming (Python/Java/C++), Database Systems (SQL), Operating Systems, Distributed Systems, Computer Networks, Software Engineering, Applied Machine Learning

Technical Skills

Languages: Python (Primary), JavaScript (ES6+), TypeScript, SQL, Java, C++, HTML5/CSS3

Frontend & Web: React 19, Next.js, Tailwind CSS, Vite, State Management (Context/Redux), Responsive UX, WebSockets

Backend & Data: Python (FastAPI, Flask), Node.js, Express.js, PostgreSQL, MySQL, RESTful APIs, Redis, Database Indexing

Applied AI & Cloud: LLM Application Architecture, Prompt Engineering, OpenAI/Gemini APIs, AWS (EC2, S3, RDS), GCP (ACE), Docker

Reliability & Security: Zero-Trust Architecture (ZTNA), Automated API Testing (Postman 19/19 Assertions), CI/CD, Git, Linux

Technical Experience & Internships

GirlScript Summer of Code (GSSoC)

Remote

Open Source Software Engineering Contributor

May 2026 – Present

- Contributed core features and performance optimizations across open-source developer tooling repositories using TypeScript and Python.
- Engineered automated GitHub Actions CI/CD workflows for regression testing and linting, accelerating code review velocity by 25%.
- Collaborated with global distributed maintainers in an agile, fast-paced environment to ship high-impact features.

TechSaksham (Microsoft & SAP Initiative)

Remote

AI Product Engineering Intern – **94% ML Model Accuracy**

Nov 2024 – Dec 2024

- Engineered end-to-end computer vision diagnostic pipelines with Python and Scikit-Learn, achieving 94% classification accuracy.
- Optimized inference latency and memory footprints across 10,000+ data records, enabling real-time edge predictions.

Fortinet (via AICTE & EduSkills)

Remote

Network Security Engineering Intern – **Grade O (Outstanding, 90–100%)**

Oct 2025 – Dec 2025

- Graduated with top-tier Grade O evaluation across enterprise security, stateful inspection, and Zero-Trust Network Access (ZTNA).
- Configured virtual perimeter policies, granular authentication safeguards, and security fabrics to prevent unauthorized API ingress.

AWS Academy

Remote

Cloud Infrastructure Engineering Intern – **Grade A Evaluation**

Oct 2024 – Dec 2024

- Architected resilient, multi-AZ cloud infrastructures using AWS Core Services (EC2, S3, VPC, RDS PostgreSQL, IAM) with Grade A marks.
- Configured high-availability multi-tier network subnets, automated load balancing, and CloudWatch telemetry alarms.

Featured Engineering Projects

RazorOps AI – FinTech Autonomous Reconciliation Engine | Python, React 19, Gemini AI, Firebase, Tailwind Sep 2026

- Architected autonomous financial reconciliation engine built for Razorpay AI Buildathon, decoupling deterministic math from LLM reasoning.
- Engineered automated Postman test suites validating 19/19 assertions across idempotency headers, contract schemas, and settlements.
- Designed customer-facing audit dashboard handling real-time data streams, cutting manual reconciliation overhead by 40%.

NaanStop – Full-Stack Food Delivery Ecosystem & Mobile KDS | React 19, TypeScript, Node.js, Android, PostgreSQL 2026

- Engineered end-to-end food delivery application featuring consumer storefront, real-time Kitchen Display System (KDS), and Android app.
- Implemented sub-second database state synchronization and optimistic UI updates, ensuring responsive order lifecycle tracking.

Eco-Track Logistics – Resilient Supply Chain Routing | Python, React, Gemini 2.5 Flash, Cloud Firestore, Maps API 2026

- Built disruption-recovery routing platform for Google Solution Challenge, interfacing LLM reasoning with real-time telemetry.
- Optimized routing latency and resilience by 25% under simulated weather and traffic anomalies with automated fallback heuristics.

Certifications & Accreditations

Google Cloud: Associate Cloud Engineer (ACE) & 18+ Verified GCP Skill Badges | **AWS Academy:** Cloud Architecting Graduate (Grade A)

Fortinet: Certified Associate (FCA) in Cybersecurity (Grade O) | **Palo Alto Networks:** Cybersecurity Practitioner (Grade E)

Postman: API Student Expert Certified | **Vertex AI:** Prompt Design & Generative AI Applications Specialist
