Education

Srinivas Institute of Technology (SIT), Mangaluru

Mangaluru, Karnataka, India

Bachelor of Engineering in Computer Science & Business Systems (CSBS)

Expected June 2027

- **Affiliation:** Visvesvaraya Technological University (VTU Belagavi) • Approved by AICTE, New Delhi
- **Coursework:** Data Structures & Algorithms, Object-Oriented Programming (Java/C++), Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Cloud Computing, Machine Learning

Technical Skills

Languages: Python, Java, C++, TypeScript, JavaScript (ES6+), SQL, Solidity, HTML5/CSS3

Frontend & Web: React 19, Next.js, Tailwind CSS, Vite, Redux/Context API, Responsive UI, RESTful APIs

Backend & Cloud: Node.js, Express.js, AWS (EC2, S3, VPC, RDS, IAM), Google Cloud (ACE), Docker, Firebase, Vercel

Applied AI & ML: Google Gemini 2.5 Flash, Prompt Engineering, Scikit-Learn, Pandas, NumPy, Machine Learning Systems

Security & Testing: Zero-Trust (ZTNA), Fortinet FortiOS, Stateful Firewalls, Palo Alto Networks, Postman API Testing (19/19 Assertions)

Technical Internships & Experience

GirlScript Summer of Code (GSSoC)

Remote

Open Source Software Engineering Contributor

May 2026 – Present

- Contributed core features and bug fixes to developer and security tooling open-source repositories using TypeScript and Git.
- Configured automated GitHub Actions CI/CD workflows for linting, testing, and branch validation, cutting review cycles by 25%.

Fortinet (via AICTE & EduSkills)

Remote

Network Security Engineering Intern – **Grade O (Outstanding, 90–100%)**

Oct 2025 – Dec 2025

- Graduated with top-tier Grade O evaluation across comprehensive 10-week enterprise network security engineering curriculum.
- Configured stateful firewall inspection rules, Zero-Trust Network Access (ZTNA) policies, and virtual perimeter security fabrics.

Palo Alto Networks (via AICTE & EduSkills)

Remote

Cybersecurity Engineering Intern – **Grade E (Excellent, 80–89%)**

Jan 2025 – Mar 2025

- Analyzed real-time network traffic telemetry, investigated simulated SOC alarms, and mitigated virtual perimeter risks.
- Designed threat-modeling diagrams and structured incident response automation playbooks for distributed enterprise workloads.

TechSaksham (Microsoft & SAP Initiative)

Remote

AI Product Engineering Intern – **94% ML Accuracy**

Nov 2024 – Dec 2024

- Engineered deep learning computer vision classification models for crop health analysis, achieving 94% prediction accuracy.
- Optimized model inference latency on edge compute nodes across 10,000+ agricultural data records for real-time diagnostics.

AWS Academy

Remote

Cloud Infrastructure Engineering Intern – **Grade A Evaluation**

Oct 2024 – Dec 2024

- Architected resilient, multi-AZ cloud infrastructures using AWS Core Services (EC2, S3, VPC, RDS, IAM) with Grade A marks.
- Engineered secure multi-tier subnet topologies, routing tables, and CloudWatch performance monitoring alarms.

Featured Engineering Projects

RazorOps AI – FinTech Autonomous Reconciliation Engine | React 19, Gemini AI, Firebase, Tailwind

Sep 2026

- Architected autonomous financial reconciliation engine built for Razorpay AI Buildathon 2026, decoupling math from LLM reasoning.
- Engineered automated Postman test suites validating 19/19 assertions across idempotency headers, contracts, and nodal settlements.
- Automated detection of MDR variances and settlement discrepancies, cutting manual auditing overhead by 40%.

NaanStop – Full-Stack Food Delivery Ecosystem & Mobile KDS | React 19, TypeScript, Node.js, Android

2026

- Engineered full-stack food delivery ecosystem featuring customer storefront, kitchen display system (KDS), and native Android app.
- Implemented real-time Cloud Firestore synchronization for live order lifecycle state management and sub-second queue transitions.

Eco-Track Logistics – Resilient Supply Chain Routing | React, Gemini 2.5 Flash, Firebase, Maps API

2026

- Engineered disruption-recovery supply chain engine for Google Solution Challenge 2026, boosting routing resilience by 25%.
- Interfaced Gemini 2.5 Flash reasoning with real-time IoT telemetry to dynamically detect disruption vectors and reroute shipments.

Certifications & Accreditations

Google Cloud: Associate Cloud Engineer (ACE) & 18+ Verified GCP Skill Badges | **AWS Academy:** Cloud Architecting Graduate (Grade A)

Fortinet: Certified Associate (FCA) in Cybersecurity (Grade O) | **Palo Alto Networks:** Cybersecurity Practitioner (Grade E)

Postman: API Student Expert Certified | **Vertex AI:** Prompt Design & Generative AI Applications Specialist
