## Education

### Srinivas Institute of Technology (SIT), Mangaluru

Mangaluru, Karnataka, India

Bachelor of Engineering in Computer Science & Business Systems (CSBS)

Expected June 2027

- **Affiliation:** Visvesvaraya Technological University (VTU Belagavi) • Approved by AICTE, New Delhi
- **Relevant Coursework:** Applied Machine Learning, Statistics & Probability, Data Structures & Algorithms, Database Management Systems (SQL), Operating Systems, Cloud Computing, Operations Research, Software Engineering

## Technical Skills

**Data Science & AI:** Generative AI (LLMs), Python, Scikit-Learn, Pandas, NumPy, Deep Learning, Semantic Analysis

**Languages & DBs:** Python (Primary), SQL (PostgreSQL, MySQL), JavaScript (ES6+), TypeScript, Java, C++, HTML5/CSS3

**Cloud & Platforms:** Google Cloud (ACE Certified), AWS (EC2, S3, RDS, CloudWatch), Vertex AI, Docker, Firebase, Git, Linux

**Methods & Analytics:** Statistical Modeling, Operations Research, Predictive Modeling, Discrepancy Detection, EDA

**Reliability & Testing:** Zero-Trust (ZTNA), Automated API Testing (Postman 19/19 Assertions), CI/CD, Model Validation

## Data Science & Engineering Experience

### TechSaksham (Microsoft & SAP Initiative)

Remote

AI Product Engineering Intern – **94% ML Model Accuracy**

Nov 2024 – Dec 2024

- Engineered end-to-end computer vision diagnostic pipelines using Python and Scikit-Learn, achieving 94% prediction accuracy.
- Optimized model inference latency and feature extraction across 10,000+ data samples, documenting confusion matrices for edge nodes.

### GirlScript Summer of Code (GSSoC)

Remote

Open Source Software Engineering Contributor

May 2026 – Present

- Contributed core features and performance optimizations across open-source developer tooling repositories using Python and TypeScript.
- Engineered automated GitHub Actions CI/CD workflows for regression testing and linting, accelerating code review velocity by 25%.

### AWS Academy

Remote

Cloud Infrastructure Engineering Intern – **Grade A Evaluation**

Oct 2024 – Dec 2024

- Architected resilient, scalable cloud infrastructures using AWS Core Services (EC2, S3, VPC, RDS PostgreSQL, IAM) with Grade A marks.
- Engineered high-availability multi-tier network topologies and CloudWatch telemetry pipelines for real-time workload monitoring.

### Fortinet (via AICTE & EduSkills)

Remote

Network Security Engineering Intern – **Grade O (Outstanding, 90–100%)**

Oct 2025 – Dec 2025

- Graduated with top-tier Grade O evaluation across enterprise security, stateful inspection, and Zero-Trust Network Access (ZTNA).
- Configured virtual perimeter policies, granular authentication safeguards, and security fabrics to protect sensitive enterprise data.

## Featured Data Science & AI Projects

### RazorOps AI – FinTech Autonomous Reconciliation Engine | Python, Gemini AI, PostgreSQL, Tailwind

Sep 2026

- Architected autonomous financial audit system built for Razorpay AI Buildathon, decoupling deterministic math from LLM reasoning.
- Implemented semantic discrepancy detection across transaction streams, cutting manual auditing overhead by 40%.
- Engineered automated Postman test suites validating 19/19 assertions across idempotency headers, schema integrity, and settlement data.

### Eco-Track Logistics – Resilient Supply Chain Routing | Python, Gemini 2.5 Flash, Cloud Firestore, Maps API

2026

- Engineered predictive supply chain disruption platform for Google Solution Challenge, boosting routing resilience by 25%.
- Interfaced LLM reasoning with real-time IoT and telemetry datasets to detect route disruption vectors and execute probabilistic rerouting.

### NaanStop – Full-Stack Food Ecosystem & Live Queue Engine | React 19, TypeScript, Node.js, PostgreSQL

2026

- Engineered end-to-end commerce platform with real-time order lifecycle analytics, kitchen display system (KDS), and PostgreSQL schemas.
- Implemented sub-second data synchronization and state management, handling concurrent order updates without data race conditions.

## Certifications & Accreditations

**Google Cloud:** Associate Cloud Engineer (ACE) | **AWS Academy:** Cloud Architecting Graduate (Grade A)

**Vertex AI:** Generative AI Specialist | **Fortinet:** Certified Associate in Cybersecurity (Grade O)

**Postman:** API Student Expert | **Palo Alto Networks:** Cybersecurity Practitioner (Grade E)
